Better Breeze installations

Installations in progress:

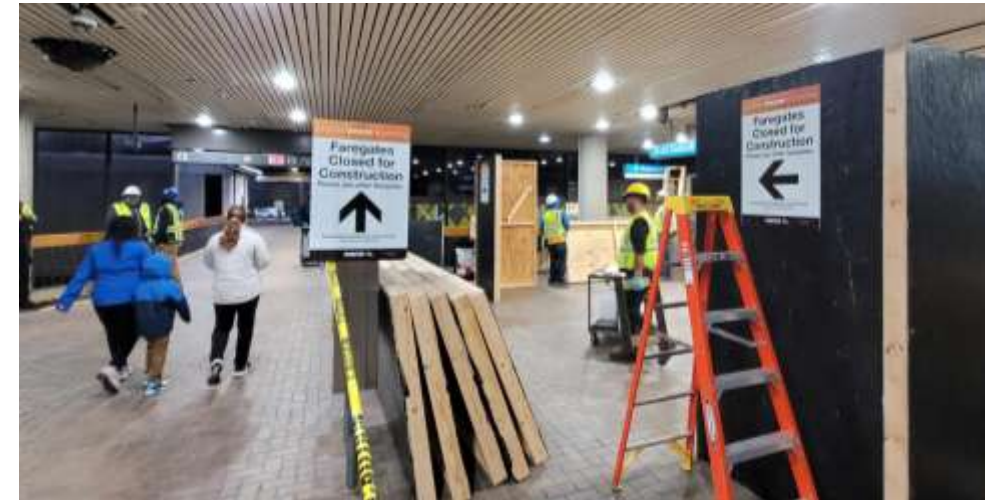

- Lindbergh
- Doraville
- Dunwoody
- East Point
- Ashby
- Georgia State
- West End
- North Springs
- Kensington
- Indian Creek
- HE Holmes
- Civic Center
- Midtown
- Buckhead
- Avondale
- Vine City (Jan. 12)

Better Breeze customer scenarios

1. Customer detoured to other faregates

- Anticipate additional trip time of less than 3 minutes in most cases
- Use old Breeze system as normal

2. Customer enters/exits through emergency gates

- Fare is collected when tapping out at destination
- Skip the Tap when transferring to buses after exiting through emergency gate

Five Points Transformation (upstairs)

- Plaza demolition work ongoing; crane installation expected in late January
- Plaza headhouses being removed
- Shoring being installed on concourse level to support weight of canopy during deconstruction

Five Points Transformation (upstairs)

- Forsyth Street is only entrance; Peachtree and federal tunnel closed
- New improvements to customer pathways on concourse open Friday, Jan. 9
- Ashby services campus mostly complete, pending some IT installations. Public opening date TBD.
- World Cup beautification project for exterior in coordination with Mercedes-Benz Stadium, other Downtown stakeholders
- Visit itsmarta.com/fivepoints or email fivepoints@itsmarta.com for more details.

Five Points Station Rehab (downstairs)

- Work progressing with platform pavers, wall tiles, ceiling replacement, wall panels, seating areas
- Periodic escalator closures for wall and ceiling work
- East/West center platform reopens this Friday, Jan. 9, for Southbound transfers only.
- Planned completion Spring 2026
- Beyond 2026: Two new elevators to improve transfers in all directions. Will be completed by end of Transformation (upstairs).

Garnett Station Rehab

- Platform and lower concourse paver replacement complete after 6-week skip stop
- Paver replacement on upper concourse continues. Elevator service to upper concourse expected to resume Friday, Jan. 9
- Deep cleaning of concrete walls, replacement of windscreens
- Plaza improvements and activation through Project for Public Spaces grant with ADID
- Coordinating with SoDo and City on Broad Street improvements

Peachtree Center Station Rehab

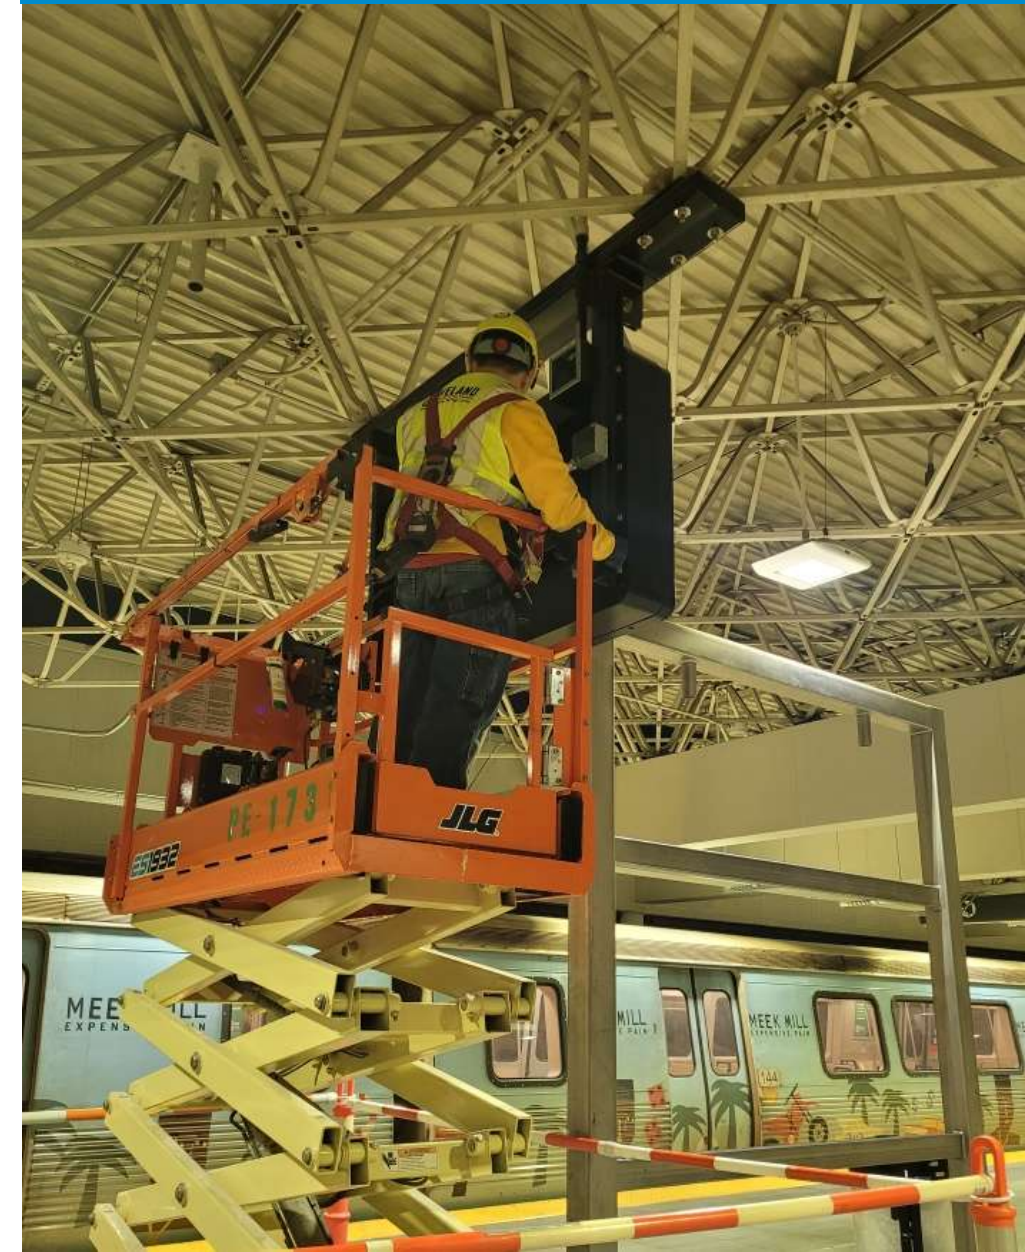

- Heavy cleaning, painting, other repairs ahead of World Cup
- Installation of new Smart restroom
- Some temporary access changes for customers possible

Airport Station Rehab

- New 2nd elevator scheduled to open mid-February
- New benches installing mid-February
- New RideStore planned to open in April

Vine City Station Rehab

- Heavy cleaning, landscaping, other aesthetic improvements ahead of World Cup.
- Scope will be dependent on time and budget

Indian Creek Station Rehab

- New pedestrian bridge to Durham Park Road complete
- New operator restroom on platform complete
- Installation of new wall paneling ongoing
- Plaza renovation delayed by budget limitations; new scope pending
- Parking lot repaving pushed into future fiscal year
- Installation of new operator restroom on platform pending

East Lake Station Rehab

- South bridge is mostly completed in parking lot
- Bridge spans freight railroad, which requires coordination with CSX
- All comments from CSX have been addressed by MARTA. Awaiting approval from CSX to schedule work
- Requires closure of south side of station
- Brief closure of College Avenue (2-3 days)

Expansion: Rapid A-line (aka Summerhill BRT)

- Block-by-block detours in progress on southern portion of Hank Aaron Drive for resurfacing
- Resurfacing requires detours of local bus routes 49 & 55
- All 14 station pads installed; shelter installations pending.
- Buses delivered, training and other system preparations in progress
- Goal of revenue service in April 2026.
