

What is EMS?

An **Environmental Management System** is a systematic set of processes and practices through which MARTA recognizes and manages their environmental aspects and impacts, raises employee awareness, and demonstrates our commitment to the environment.

ENVIRONMENTAL TARGETS:

Rail Maintenance Facilities

- Fluorescent lamp management
- Refrigerant usage reduction
- Industrial wastewater discharges with close to zero phosphorus & TPH levels
- High percentage of wash water recycling

Bus Maintenance Facilities

- Wastewater Pre-Treatment Systems (e.g. Oil-Water Separators & Grit Chambers)
- Minimize spills
- Spill posters posted
- Fluorescent lamp management
- High percentage of wash water recycling

Office Buildings

- Label all chemical containers
- Fluorescent lamp management
- Minimize spills
- Paper usage reduction and increased paper recycling
