

**Northridge Area Community Meeting** 

June 12th, 2014

#### **Today's Meeting Purpose**

- Where We Are
- What We've Heard
- The Screening Process
- Q&A
- Where Do We Go From Here?

#### Purpose and Importance of this Study

- Evaluate feasibility of increased transit service
- Identify potential for high-capacity transit project implementation

#### **Differentiation Between Past Studies**

- Focused investment along GA 400 corridor
- Assessed land development over past decade
- Considered demographic changes in study area
- Advanced planning process from previous studies

#### **Early Scoping**

- FTA recently updated the New Starts funding program, streamlining the environmental review process.
- Early Scoping is an optional community involvement step during the major planning phase of a transit project.
- Input and comments tonight will be considered as part of the Federal NEPA process, should MARTA prepare an EIS for FTA review.

FTA = Federal Transit Administration

NEPA = National Environmental Policy Act

EIS = Environmental Impact Statement

## Where We Are

#### **Connect 400 Alternatives Analysis Schedule**

#### DISCOVERY

- ?
- Goals and Objectives Purpose and Need
- >> Existing Conditions

2011 Winter

#### DISCUSSION

- » Evaluation Methodology
- » Definition of Alternatives
- » Refine Ridership Model

2012 Spring

#### **DEVELOPMENT**

- » Evaluation of Alternatives
- » Refine Alternatives

2012-2013 Summer

2013-2014 Fall

We are Here

- Re-initiated efforts in Spring of 2014 to:
  - Conduct a second phase of Early Scoping
  - Initiate the preliminary New Starts evaluation
  - Recommend / adopt a Locally Preferred Alternative

#### Federal Project Development Process

**Project Development: Typically 6 – 12 years** 

### What We've Heard

#### **Outreach**

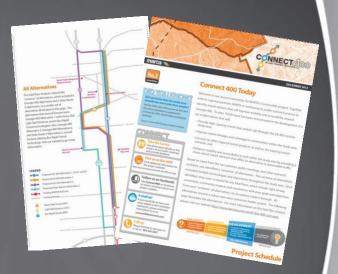

## Stakeholder Interviews Technical Advisory Committee Project Steering Committee

- Stakeholder: 30 Meetings
- TAC: December 13, 2011;
   February 28, 2012, October 25, 2012
- PSC: January 18, 2012; March 22, 2012; November 14, 2012; February 26, 2013; May 9, 2013; October, 17, 2014; June 12, 2014

#### **Public Meetings**

- 2011: December 13- Minority and Non-English Speaking Leadership Meeting
- 2012: January 26; May 22;
   March 21; August 21-El Banco;
   August 30- North Fulton
   Chamber of Commerce
   Breakfast Forum
  - **2013:** March 21; September 26
  - Fall 2013: City Council Briefings

#### Surveys

- December 12, 2012 to January 17, 2013
  - 136 Respondents
- March 2014 Public Opinion Survey
  - 612 Residents
  - 463 Employees

#### **General Themes**

- Lack of transportation funding
- Need for 'last mile' circulation
- Need feeder system to 400 transit
- Need for transit-oriented development around the stations
- Desire to preserve visual aesthetics, including river buffers and tree buffers
- Phase transit improvements to build market/ ridership
- There is no 'reverse commute' on 400, both directions bad during peak hours
- Need to improve existing MARTA bus routes and add more
- Georgia 400 corridor is preferred alignment
- Community support for Heavy Rail Transit

#### **Public Opinion Survey Highlights**

- Majority of residents believe traffic congestion is a real problem.
- Almost 80% of respondents agreed that a better public transportation system is needed
- Over 60 % of all respondents indicated they would use public transportation more often if it could get them to places they need to go
- Ironically, almost 60 % of respondents generally agreed that improving the local roadways is the best way to solve the areas traffic problems
- Almost 80% of respondents indicated they either strongly approve or approve of expansion of MARTA up GA-400 to the Forsyth County line
- Heavy rail preferred by 40% of respondents
- Light rail is preferred by 37%
- BRT in HOT/HOV preferred by 11%; fixed guideway by 6%

## The Screening Process

#### **The Screening Process**

<u>Fatal Flaw Analysis</u> considers at a high level:

- ·Purpose & Need
- ·Constructability & right-of-way impacts
- ·Generalized Technology Assessment

Defined alternatives (combinations of alignment & transit technology) for Screen 1

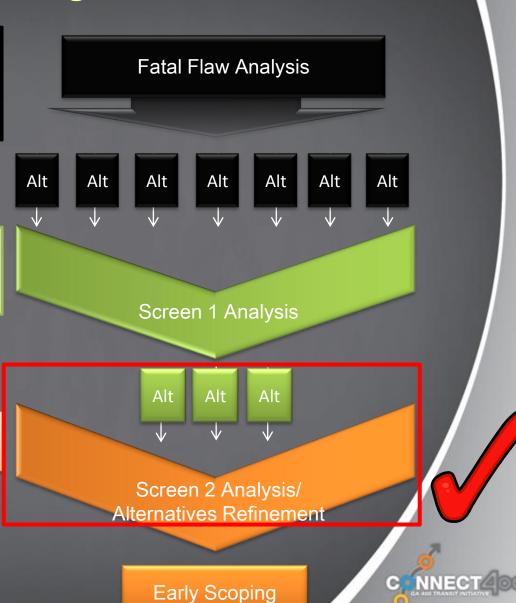

<u>Screen 1</u> applies both quantitative & qualitative evaluation criteria to reduce the number of alternatives

Smaller set of alternatives advance into Screen 2

<u>Screen 2</u> involves a more in-depth analysis using additional performance measures

Screen 2 refines the alternatives

**Recommendation to MARTA Board** 

## Windward Parkway NorthPoint Mansell Road Holcomb Bridge Road Holcomb Bridge Road **MAP IS CONCEPTUAL -**EAST SIDE VS. **WEST SIDE NOT** YET DETERMINED North Springs Medical Center

## Overview of Potential Alternatives Georgia 400 – 1 (A)

#### Alignment

- 11.9 miles Long
- North Springs Station Windward via GA 400

#### Transit Technology

- Bus Rapid Transit
- Light Rail/Streetcar
- Heavy Rail

#### **Potential Stations**

- Northridge
- Holcomb Bridge
- Mansell Road
- North Point
- Old Milton (LRT/BRT only)
- Windward Parkway

<sup>\*</sup> GDOT ROW availability on GA 400 to be determined based on Managed Lanes Study

#### Northridge vs. Pitts Locations

- Station Type Regardless of location, the Northridge/Pitts location was preferred to be a community station
- What we've heard from the public:
  - Public Outreach Meeting 5/22/12 –
     A majority of respondents stated that the Pitts Road access point should be relocated to Northridge Road
  - Public Outreach Meeting 3/21/13 –
     Pitts Station should be eliminated and Northridge Station preferred

#### **Northridge Area**

- **Existing Land Use/Zoning** Low-density residential east of GA -400 with some institutional and office uses; Office, autooriented commercial, high-density residential west of 400
- Future Land Use East of 400 to remain low-density residential with institutional uses. West of 400, mixed-use is planned for Northridge/SR-9, with surrounding areas developing mid-high density residential
- Vacant/Underutilized Land 66 Acres (13% of total land area)
- Projected 2040 Population 2,766
- Projected 2040 Employment 2,736

#### Northridge Road Station Sandy Springs

Character Areas West of GA 400: -Mixed-use Neighborhood Urban Residential -Employment (NW)

East of GA 400 -Protected -Urban Residential

#### Mansel Road

#### Existing:

Existing:

-Coca-Cola Facility

-Business Park

-Auto-Oriented

Future Land Use:

-Living-Working

(mixed-use)

-Business Park

Existina:

Low-density residentia

-Small area of existing

Low-density residentia

Existing higher density

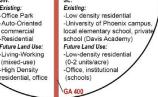

Future Land Use:

(0-2 units/acre)

residential

higher density residential

-Office Park -Auto-Oriented -Residential Future Land Use: -Living-Working High Density

Evaluation of Alternatives		Heavy Rail (HRT)	Light Rail (LRT)	Bus Rapid Transit (BRT)
Goal 1: Mobility & Access	New Riders by 2040	High	Medium	Low
	Daily Travel Time Savings	High	Medium	Low
	Annual Corridor Crash Reductions	High	Medium	Low
Goal 2: Land Use and Economic Development	Consistency with adopted local/regional plans/development potential	High	High	Medium
Goal 3: Cost- Effective Transit Service	Annual Estimated O&M Costs	Medium	Low	High
	Construction Capital Costs	Medium	Low	High
	Cost per Trip	Medium	Low	High
Goal 4: Minimize Environmental Impacts	Change in VMT	High	Medium	Low
	Reduction in Air Quality Pollutants	High	Medium	Low
	Noise Sensitive Land Uses	Low	Medium	High

# marte Control of the Control of the

#### **Benefits & Challenges**

#### Benefits

- Reduction in commute times
- Reduction in vehicle miles traveled (VMT) and air pollutant emissions
- Reduction in vehicular crashes
- Increased employment
- Increased property values around station areas
- Reduced impact to environmental and community resources because the alignment utilizes GA 400 right of way

#### Challenges

- Encouraging higher density, less autooriented development
- Funding challenges for capital costs
   & system operations/maintenance

## Where do we go from Here?

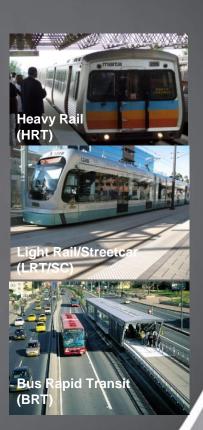

#### **Next Steps**

#### **Preliminary New Starts Evaluation**

- Analysis underway to determine project performance with respect to:
  - Mobility Improvements
  - Cost Effectiveness
  - Congestion Relief
  - Environmental Benefits
  - Land Use
  - Economic Development
- Will inform selection of preferred technology as well as overall project approach and timing

#### **Upcoming Community Meetings**

- Tuesday, July 8, 6:30PM-8PM
   Public Meeting #1 Johns Creek Environmental Campus
- Thursday, July 10, 6:30PM-8PM
   Public Meeting #2 GSU Alpharetta Center
- Thursday, July 17, 6:30PM-8PM
   Public Meeting #3 Hampton Inn Atlanta / Perimeter

## **Questions or Feedback?**
